The New York Evening Post will have to distribute some of its "educational tracts" among the Southern editors. . .

One of the most graphic, discriminating and valuable tributes to the inlitary genius and patriotic achievements of Philip Henry Sheridah, Is that of General Byron M. It is still attenuously asserted that the friends of Mr. Cleveland in the National Democratic Committee any determined to olect Calvin 'S. Brice Chairman, in the place of the late Wm. If. Baroum. What blace of the fate Wm. II. Barnum. What kind of a light will the Democratic party be able to make in 1892 under the leader-ship of a millionaire railread manipulator? Are the Plutocrats to dominate the old-fashioned party of Thomas Jefferson?— New York Herald.

The friends of Mr. Cleveland have enrrled out their programme and the "man whose check is good for a million" is the chairman of the the Democratic National Committee. . This action of the committee rather puts the laugh on the World which has had so much to say about the money campaign of the Republicans. | Mr., Brice will lead his party through another wrain bow" campaign only to again encounter lefeat, but he has a "bar'l" and can pay the bills, a fact that counts for a good deal with the Democrats. The opinion of the committeemen appeared to be that Cleveland would capture the nomination again in 1892. The election of Brice and the prospect that Cleveland and free trade will once more be the battle cry of the Democracy is highly encouraging to the

It having be contended for some time that Canadian box shooks were catered at Rouse's Point, New York, last week, which resulted in the allooks being advanced 70 per cent. General Appraiser, H. P. Kit, field, of Boston, was the United Shites apprender, and with him was associated a local dealer who noted as the merchant appraiser. The hearlog was largely attended by lumbermen from Massachuretts, Maine, Vermont and Michigab, and also many Canadian exporters, but the testimony presented as to the value of the shooks was so cooplasive that there was nothing lift to the appraisers but to advance the advalorem duty, despite the vignorus fight made by the Canadians, who are, of course, anglous to keep the duty as low as possible so as to be able to find a market for their goods. It is said at the Southern pine is soid at \$18, which is very much less than white pine flooring, of the same for the course, anglous to keep the duty as low as possible so as to be able to find a market for their goods. A reporter asked Mr. Clarkson, First Assistant Postmaster General, as to the facts in regard to the appointment of postmaster at the town of Cannelton, Ind., concerning which the President has been much icriticised, many papers having quoted a speech made by him in the United quoted a speech mand by him in an omiced States Senate in regard to the removal of Mrs. De La Hunt from that office by Presi-dent Cleveland in 1885, in which Mr. Harrison strongly protested against her re-moval. Criticism has been made of the appointment of Mr. Zimmerman there recently, when Mrs. De La Hunt was an applicant. Mr. Chikson said: "The Pres. ldent is not responsible for the appointment. He thought the office was Presidential and had made a memorandum that the appointment should be given to Mrs. De La Hunt. Instead of that, the office was fourth class and I made the appointment on the recommendation of Congress-man Poscy, whose recommendations are generally taken for appointments in that district. It is only due the President to say that he knew nothing of it. It is very probable that a change will be made there in some way, as Mrs. De La. Hunt is the widow of a Union soldier, very deserving and undoubtedly competent. If I had in known the facts I should have appointed har, and I think yet she ought to be ap-pointed. It is only fair that the public should knew that the President was not responsible for the appointment. His intention was to have appointed the widow of a Union seldier at Canadian. 2 11 1.2
